

PAM Panorama

Energy Upgrading

THE PROJECT

Replacement of the BMS with a **new BEMS** in PAM Cassino Hypermarket and Shopping Mall.

- Control logic redefining for energy saving purposes.
- Installation of multi-meters.
- Energy monitoring and analysis.

THE PRODUCTS

The EasyLink supervisor, combined with the EnergyLink module, allows an **advanced energy management**. It provides fast and centralized access to check at any time the trend of the technological and energy data acquired by the field tools.

THE RESULTS

ENERGY SAVING

-15,9%

Saving in 8 months

80.275 €	m ³ 1.942
kWh 446.925	CO ₂ ton 170

Investment
